

CLEMCO PORTABLE BLASTERS PACKAGES

Clemco Classic Blast Machine Systems and the Norton “Special Packages” (see below for details) are available with three different vessel sizes, 2, 3, & 6 (cubic foot Vessels). Clemco machines are built tough to endure real world use. With wear-parts positioned for quick replacement, Clemco blast machines virtually eliminate downtime, so they spend more time at the job site; less time in the shop.
